

Voice Termination for Tier 1 Operators

About IDT

IDT Corporation, Inc. (NYSE: IDT) is a multi-national telecommunications company. As one of the largest international voice operators worldwide, IDT has relationships with hundreds of international carrier partners. A pioneer of VoIP telephony, IDT released its first PC to Phone technology in 1996 and Phone to Phone model in 1997. IDT is also one of the world's largest debit/prepaid platform operators, selling millions of prepaid calling cards per month.
