Offer customers across the globe an easy and inexpensive way for their U.S. callers to reach them.

Our toll free services feature a number of origination and termination options and extensive billing and reporting functionality.

Service	Origination	Termination	Advanced Features
Dialocal	U.S. Toll Free	PSTN to U.S. or international locations	Reach Me and VoiceMail
Value USA 800	U.S. Toll Free	Via IP to U.S.	N/A
Value Americas Toll Free	U.S. Toll Free	Via IP internationally	N/A

Dialocal

Dialocal is a prepaid service that provides:

- U.S. toll free origination
- Termination over the PSTN to U.S. or international locations
- Support for “Reach Me” and VoiceMail functionality

With Dialocal, there are no minimum usage requirements.

Value USA 800 Service

Our postpaid Value USA 800 service delivers:

- U.S. domestic 800 origination and termination (AK, HI and PR optional)
- Termination via IP connectivity (customer must have an IP-enabled switch)

With the Value USA 800 service, there is a monthly minimum usage requirement.

Value Americas Toll Free Service

Value Americas Toll Free is a postpaid international “reverse ITFS” service that:

- Routes U.S. toll free calls to a foreign location
- Terminates via IP connectivity (customer must have an IP-enabled switch)

This service also includes a monthly minimum usage requirement.

Toll Free Services

About IDT

IDT Corporation, Inc. (NYSE: IDT) is a multi-national telecommunications company.

As one of the largest international voice operators worldwide, IDT has relationships with over 650 international carrier partners. A pioneer of VoIP telephony, IDT released its first PC to Phone technology in 1996 and Phone to Phone model in 1997. IDT is also one of the world's largest debit/prepaid platform operators, selling millions of prepaid calling cards per month.
