IDT Carrier Services' global network of partners and termination points ensures excellent quality around the world.

Our three levels of service enable you to select an optimal solution for terminating your global traffic.

#### Gold Routing

IDT Gold Routing provides operators with the highest quality call routing and is designed to meet the needs of demanding retail customers. Our Gold service features:

- Only top tier carriers (PTTs/Mobile Operators) in routing strings
- All routes actively managed 24 x 7
- Stable Quality of Service (QoS) parameters that meet retail customer demands
- CLI and roaming enabled routes
- 24 x 7 Network Operations Center (NOC) support
- Granular code level destinations

#### Silver Routing

Our Silver Routing delivers a high quality level of service with a competitive price point by providing:

- Suitability for both wholesale and retail traffic
- Stable levels of quality
- Access to a large pool of interconnects
- Termination to all destinations
- 24 x 7 Network Operations Center (NOC) support
- Granular code level destinations

#### Least Cost Routing (LCR)

Least Cost Routing offers the most affordable international termination and is designed for carriers of wholesale traffic. IDT LCR provides:

- Market opportunity pricing
- Access to a large pool of interconnects
- Termination to all destinations
- 24 x 7 Network Operations Center (NOC) support
- Granular code level destinations
