Flexible Turnkey Solution

WorldReach enables you to deliver your own branded telephone service with minimal capital and operational resources. Our flexible program allows you to choose the elements you want to administer, while IDT manages the rest.

Hosted Service Options

You can choose to implement one or all of the following services:

Component	Benefit
Account management through our Web-based portal or full API integration	Utilize our portal or your existing systems for account management
Customized billing and reporting	Allows you to effectively track and manage your business
On-line portal for your customers	Enables your subscribers to view and make changes to their account, reducing the need for customer support
Credit card processing, collection and fraud management services	Provides a safeguard and allows you to save on operational expenses
Customer service	IDT can provide Tier 1 and/or Tier 2 customer support (multi-lingual, 24 x 7)

Customized Calling from a Global Leader

Utilizing IDT's robust transactions platform, we can design a program that appeals to your market and fits your business model. Our unlimited and fixed plans feature attractive international and domestic rates and can be customized based on your subscribers' calling patterns.

Profitable Business Models

You can choose a per minute revenue model or our popular fixed price model that provides cost predictability. In either case, you can leverage the marketing expertise IDT has gained as the largest U.S. debit/prepaid platform operator and one of the largest international voice operators.
